SPZ-HPBY	SPZ-HPBY Datasheet
SPI-HPFL	SPI-HPFL Datasheet
SPZ-HPBY	SPI-HPBY Datasheet

Change Detail	
Description of Change	Raytec are announcing that, with immediate effect, the colour of front covers used on the WARRIOR SPI-HPFL & SPI-HPBY will be RAL9006
Reason for Change	Product Standardisation. This change simplifies the supply chain, allowing Raytec to hold stock of a single material used across a range of finished parts. This in turn means the business can be more flexible to short lead time and pull in requests
Implementation Plan	Open orders will be converted to use RAL9006 front covers Any new orders will be built with RAL9006 front covers SPARTAN Zone 2 & CID2 (SPZ) will remain RAL7012 until stocks are depleted and will then change to RAL9006 (Approx 6 months) Website, datasheets & literature will be updated in due course.
